To

K. V. Anantnaraman Esq., B.A.,

Offg Secretary to the Government of

His Highness the Maharaja of Mysore,

Local and Legislative Departments,

B A N G A L O R E.

Sir,

I have the honor to forward herewith a copy of the resolution of the City Municipal Council passed at their meeting held on 10-5-1924 stating that the number of Sanitary Inspectors of the Health Department be increased from 5 to 7 in order to effect better supervision over the work of the subordinate staff of the Sanitary Department and to enhance the standard of efficiency The present scale as per Government Order No L 790-1/ml.56-21-47 dated 26-7-1922 is 1 Chief Sanitary Inspector on Rs 80-4-100 plus Rs 20/- C A and 4 Sanitary Inspectors on Rs 50-5-80 plus Rs 10/-C A. each A Sanitary Inspector has been appointed in place of the Chief Sanitary Inspector It is now proposed to do away with the Chief Sanitary Inspector's place and to increase the strength of Sanitary Inspectors from 5 to 7, as the City with its extensions on all sides cannot adequately be supervised with the present strength In this connection the views of the Sanitary Commissioner have been obtained and I enclose a copy of his letter No C Dis 482 dated 8-4-1924 and also the report of the health officer for kind perusal The extra cost involved is Rs 95-10-8 a month and necessary provision has been

been made in the Budget for 1924-25. The proposition statement in duplicate is herewith attached I request that sanction of Government may kindly be obtained early.-

I have the honor to be,

Sir,

Your most obedient servant,

Municipal Commissioner.

Forwarded with compliments.

Subject No. 4 - Letter dated 17th February 1924 from Mr Mohamed Abbas Khan, Municipal Councillor, proposing to move the following proposition -

"With a view to effect better and more systematic supervision over the work of the subordinate staff of the Sanitary Department and to enhance the standard of its efficiency it is hereby resolved that the vacant place of the Chief Sanitary Inspector be filled in forthwith and that the appointee be placed in charge of a circle to be created for the purpose comprising some of the Sanitary divisions being placed under his subordination"

Also Health Officer's report No. 2061 dated 29-2-1924.

Resolution - Mr Mohamed Abbas Khan modified the proposition as follows -

"With a view to effect better and more systematic supervision over the work of the subordinate staff of the Sanitary Department and to enhance the standard of its efficiency, it is resolved that the number of Sanitary Inspectors be increased from 5 to 7."

This proposition was discussed at great length and was carried unanimously.

13

Copy of D.O No C Dis 482 dated 8th April 1924 from the Sanitary Commissioner with the Government of Mysore, to the President, City Municipal Council, Bangalore.

Your D O. of the 18th March 1924

Although the appointment of a Chief Sanitary Inspector in each of the Municipalities of Bangalore and Mysore is contemplated in para 3 of Government Order No 2582/Ml 184-19-17 dated the 10th November 1917, yet --- personally I am of opinion that there is no necessity for the appointment As you are probably aware, the post of Chief Sanitary Inspector for the Kolar Gold Fields was done away with some years ago In the Mysore City the appointment was recently revived as a tentative measure but I can not say that it has met any real want nor furthered the efficiency of work in the Health Department On the --- contrary, the appointment has been an encumbrance rather than any material aid to the health Officer between whom and the Sanitary Inspectors a new controlling and supervising agency has been interposed. In fact, the question of assigning duties to the Chief Sanitary Inspector without

14

without in any way detracting from the existing efficiency has presented not a little difficulty.

In the Bangalore City itself the post has been left vacant now for a number of years and I believe I am not wrong in saying that the arrangement has so far not caused any sort of inconvenience. It is understood that even when there was an incumbent, his duties were restricted to the charge of a division in common with the other Sanitary Inspectors All things considered, I am of opinion that the appointment of Chief Sanitary Inspector is superfluous and that available funds can be better utilised in increasing the number of Sanitary Inspectors If instead of a Chief Sanitary Inspector a Medical Assistant is given to the Health Officer, his services will beuseful in combating epidemics, for plague inoculations and in connection with any epidemiological investigations that may be put on hand with a view to take steps to better the health conditions of the town."

"C O P Y"

Municipal Commissioner,
City Municipal Council,
Bangalore.

D N R.

Copy of Her O.No.To.2081 dated 29-4-1924 from the Health Officer to the Municipal Commissioner, City Municipal Council, Bangalore.

"The proposition presumes the existence of a post called the "Chief Sanitary Inspector" in the City Municipality But as far as I am aware there is no such post. Neither there is a provision in the budget therefor at present Government, however, seem to have recognised the need of such an appointment as far back as the year 1905 for the City Municipalities and I am given to understand that the very question was considered by this Council more than once on previous occasions, and vetoed as unnecessary.

If, however, it is the intention of the mover to recommend the creation of an appointment, I welcome the suggestion from an administrative point of view

(1) The Chief Sanitary Inspector can be made to look after the routine duties of the Health Officer, especially those relating to Daily Conservancy and sanitation, thus enabling the latter to attend to more important duties of direction, supervision inspection, control of epidemics and research work

(2) Such an officer can also take the place of the Health Office easily whenever the latter goes on leave or on account of other contingencies, being well qualified and well versed in matters of sanitation & etc

(3) In case the rules relating to the proposed appointment are made sufficiently elastic, it may be some incentive to the Sanitary Inspectors who, instead of stopping at Rs 60/- as at present, may hope to rise by dint of merit and long service to the Chief Sanitary Inspector's post

But such an officer should be subordinate to the Health Officer and not independent of him, as it seems to me to be conveyed by the wording of the proposition in its latter portion

In regard to this appointment, I have to state that there are no Chief Sanitary Inspectors in other Municipalities in the State I know that the question of appointing such an officer is still under consideration in the Mysore City Municipal Council The Kolar Gold Fields Sanitary Board have abolished it long ago Even in Madras it seems that in places where there are wholetime Health Officers in the Municipalities, the Chief Sanitary Inspectors'

appointments

appointments have been done away with.

Coming now to a consideration of the first portion of the proposition, the mover's object in recommending the creation of the appointment is to effect better and more systematic supervision over the work of the subordinate staff of the Sanitary Department and to enhance the standard of efficiency. I am of opinion that this result can be better achieved more completely by appointing a few more Sanitary Inspectors. This will not only be economical but will lead to a greater efficiency in the working of the Department in the long run. It is certainly undesirable to have four Sanitary Inspectors instead of one Chief Sanitary Inspector, on whom the expenditure will be almost the same. After all, this Officer (Chief Sanitary Inspector) may be justly looked upon with dislike by the subordinate Sanitary Staff as being an intermediary between themselves and the Health Officer and subjecting them to dual control.

I am therefore of opinion that it is more expedient to create additional posts of Sanitary Inspectors. Bangalore City is a City of distances. Considering the increase in the population and the number of tenements in the City and rapidly expanding extensions during the last ten years, the present number of Sanitary Inspectors, viz., 4, is certainly quite inadequate to attend to the sanitary needs of the area.

One Sanitary Inspector is at present appointed to be in charge of two or more divisions at a time. Under this arrangement owing to the vastness of the area, the Sanitary Inspectors cannot do full justice to their work (both executive and in-door office). I consider that one Sanitary Inspector should be in charge of one division. Moreover, Bangalore being a big commercial place, there will be lot of floating population daily. This increases still more during the special occasions like Karaga festival, the Monorrum, Dasara and extraordinary occasions like the Viceregal visit. On such occasions special arrangements are necessary for sanitary work. At present it is impossible to withdraw a Sanitary Inspector for such work and other special work as Malarial Survey without prejudice to the normal working of the Department.

The approximate cost of four Sanitary Inspectors including their

cycle

cycle allowance will come up to Rs.200/- per mensem. But this expenditure will be commensurate with the needs of the City, and the work can be efficiently supervised and satisfactorily turned out. Arrangements can also be made during the absence on leave of other Sanitary Inspectors, which is also difficult at present.

If, however, it is proposed to appoint an officer I would --- suggest that a Medical Assistant be appointed instead of a Chief Sanitary Inspector. He can attend to disinfection, inoculation, control of --- Epidemics, Malarial operations, etc , which is now being attended to by an untrained staff."

"C O P Y"
